In your own words, describe the childhood of the brothers Ørsted:

How does the German *dynamists'* philosophy of nature differ from that of the French *atomists*? (pages 25, 28, 41, 69-71)

How is the city of Copenhagen at Hans Christian Ørsted's time different from the city of today?

What is the content of the disagreement between H.C. Ørsted and N.F.S. Grundtvig?

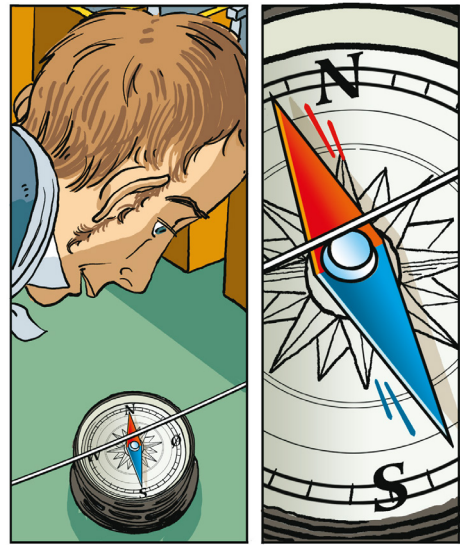

Why does Miss Probsthayn break off the engagement with Hans Christian Ørsted?

Why is Frederik VI so displeased with Anders Sandøe Ørsted that he wants his resignation?

Why does the compass needle move when Ørsted connects the current? Explain what happens.

Why does Ørsted write to his French and German colleagues in Latin?
